

Canapes Menu

Canapes Menu

Canapes are priced at £1.65 per canape

We advise a minimum of 3 canapes per person and a choice of 3-5 canapes including a vegetarian option. Once you have your final numbers and choices we can give you a price built around your requirements.

Can the canapes be dropped off or collected?

All cold canapes can be built off site and delivered to an address of your choosing. Delivery price averages at approximately £35 subject to your location being within a 8 mile radius of our base. They are delivered on disposable plastic trays, making them easy to throw away after your event and keeping everything in tact during delivery.

Can we have the canapes made on site?

Yes, you can. This is a great way to have freshly made food on site and adds a real wow factor to your day. By doing this you have the option of serving hot canapes as well as cold. The additional cost will be for the chefs at £22.50 per hour. The number of chefs is reflected in the amount of guests. We also include serving staff, which is already built into the price.

How are they presented?

When made to order, we typically present them on a rustic wooden tray lined with personalised parchment paper. Alternatively we can put these on black slates or white china plates, subject to the style of your event.
